

Vertical Water Storage Tanks

- Black or Green color limits sunlight penetration and inhibits algae growth
- All materials are UV stabilized for long-term outdoor service
- Tanks are manufactured from FDA-approved resin for potable water
- 2" bolted-on drain fitting and 1 1/2" bulkhead float valve fitting are standard
- Molded-in gallonage indicators on most tanks
- Weatherproof threaded lids with built-in anti-static surge vents
- Offset fill-wells
- Five (5) Year Warranty

Snyder provides a wide range of above ground storage tanks for indoor or outdoor use where wells do not meet the consumption needs of the users. All Snyder water tanks are manufactured from FDA approved resins and manufactured in NSF-certified facilities. Optional fittings are available.

Snyder also offers a variety of natural colored vertical storage tanks, horizontal tanks, utility (pick-up tanks), and PCO tanks ideal for hauling water, as well as a complete line of underground tanks for potable water storage. Tanks are manufactured from FDA resin in NSF certified plants.
